Network with over 70 speakers and 300 delegates from the executive ranks of the public, private and non-profit sectors!

Expertise / Lessons / Contacts

Over 70 speakers from across Canada and the globe will assemble in Toronto, Canada for an extraordinary event – the 9th Annual Conference hosted by The Canadian Council for Public-Private Partnerships!

If you have an interest in public-private partnerships, you will not want to miss this conference. Recognized internationally as the most influential PPP event in North America, this conference draws expertise from around the globe to explore the benefits of public-private partnerships both in the traditional fields as well as new and emerging areas. Two days of extraordinary expertise brought together in a single event.

As the demands on governments continue to grow, so too does the understanding of how to incorporate the expertise of the private sector. Governments all over the world are learning to work more closely with the private sector to increase their competitive edge. This conference will explore what it means to be competitive and how PPP can be an instrument to achieve that objective municipally, provincially and federally.

Day One: Competitive Government

What does it mean to be competitive? What should government and business focus on to ensure a competitive edge? International trade agreements and PPP in Canada – impact or not? Case studies of leading edge governments with PPP focus – Virginia, USA and Ontario, Canada; Latest Developments in PPP financing.

Day Two: PPP Process Issues

How to put PPP's together and how to keep them together: Sole sourcing/unsolicited bids and how to deal with them: Writing the contracts, managing the contracts; Costs of competition.

Transportation – What's new in transportation financing; Case studies in leading edge urban transportation infrastructure; Future of transportation infrastructure financing under PPP in Canada and the USA.

Water – What have we learned post-Walkerton? Is there a role for the private sector?

Power – Case study of the Bruce Power Facility lease arrangement with British Energy and partners and Ontario Power Generation – one of Canada's largest PPP's.

Health – What's the role for the private sector and does it threaten our publicly administered system of health care? Case Studies. UK's great success stories.
